**Evidence: Screencast review of Minecraft EDU Division Farms World**

**OLTD Outcome Addressed:** Critically assess and evaluate resources for best practice in mobile learning and gaming environments.

In order to show evidence of my learning in 508 I chose to share my [Screencast-O-Matic review](#) of the Minecraft EDU World Division Farms. In my screencast I review the world and show bits of activities that one would be required to perform there. I voice over my thoughts and opinions and give information required in assignment #6 for 508.

I chose this piece not because of the overall review that I gave, but because I was actually able to pull together a pretty good screencast video and post it to [Youtube](#). Throughout my years as tech helping teacher at my school and my time in the OLTD I have always admired people that can create screencasts showing how to work within a program or how to complete a task. I've always wanted to know how to do it and hoped that one day I'd be able to make one on my own. Using Screencast-O-Matic made it an easy process and I am very impressed with the level of quality of the video I was able to create. I'm also impressed that it only took two takes – something that is unheard of for me when it comes to creating presentations. I was thrilled! And I've already shown it off. Twice!
