

TOOL Name:	Weebly for education
TOOL URL:	http://education.weebly.com/
Closed/Open:	Closed – Privacy settings allow teacher to control which sites are public or private
General Description:	Weebly is a site that allows users to use templates to build creative personal websites to fit their own needs and style for free. Some key features are the easy drag and drop addition of numerous kinds of multimedia files, the fact that use of the website and hosting services are free of cost to students, the fact that there are no advertisements on the page (which can be a benefit to potentially impressionable young students) and also that it will allow them to quickly and easily blog and comment on each other's work. Weebly for education is hosted on company servers in the U.S. so there is the added concern of privacy issues that students and parents will need to be made aware of.
